A company specializing in automatic food packaging machines

# Sungbupack

## Company introduction

Sungbupack Co., Ltd. is a company specializing in manufacturing automated food machines as a company that has been contributing to ceaseless research and development of technology since its foundation.

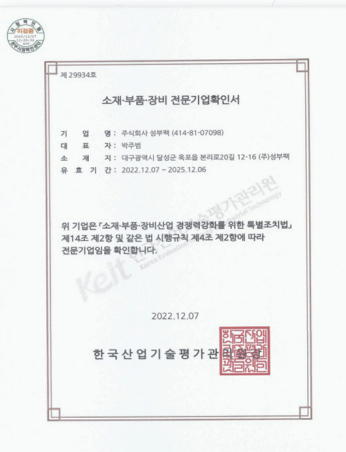

Based on the innovation in technology as philosophy of the establishment, we are always doing our best with the development of new technology and constant research and efforts without neglecting even the smallest things, and It has 35 years of technology in the field of food processing and packaging machines. and we are aiming for a company that has been always ready for providing any equipment customers want in the field of food processing and packaging machines.

# Company History

- 2019. 01. Sungebupack Co., Ltd. Startups
- 2019. 11. Design Registration No.30-1030903 Pouch for Packaging
- 2019. 11. Patent No.10-2047599 A movable hopper mounted on a stick pouch manufacturing device
- 2019. 11. Design Registration No.30-1032840 Packaging Pouch
- 2020. 01. Design Registration No.30-1041277 Beverage Stick-type Pouch Packaging Machine
- 2021. 07. Relocation of the expansion of the new factory
- 2022. 08. Innovation Voucher Enforcement Agency Registration - Venture Business Office
- 2022. 09. Quality Management ISO 9001 / Environmental Management System ISO 14001 Certification

## Patent Certificates and Design Registration Certificates / ISO Certificates

## I Single line stick packaging machine

### Features

- Easy to pack liquid and high-viscosity contents due to the diversity of contents packaging.
- Efficient cleaning possible.
- Easy to operate with the touch screen.
- Film cutting: Round cutting, basic shape cutting (optional)
- Package contents: Coffee, fermented vinegar, honey, grain syrup, jelly, sauces, etc.
- Basic heating device for hopper

Dimension	830 cm (L) X 800 cm (W) X 1600 cm (H)
Rated voltage	220V / 60hz
Power consumption	3.0Kw(Max)
Air pressure	5-6 Kg/Cm <sub>2</sub>
Equipment weight	150Kg
Production capacity	20~24 packs/minute (based on 10 g)

## I Two-line stick liquid packaging machine

### Features

- Compact design and slim type easy to install even in narrow places.
- Easy to pack liquid and high-viscosity contents due to the diversity of contents packaging.
- Efficient cleaning possible.
- Easy to operate with the touch screen.
- Film cutting: Round cutting, basic shape cutting (optional)
- Package contents: Coffee, fermented vinegar, honey, grain syrup, jelly, sauces, etc.
- Basic heating device for hopper

Dimension	1040 cm (L) X 950 cm (W) X 1750 cm (H)
Rated voltage	220V / 60hz
Power consumption	3.0Kw(Max)
Air pressure	5-6Kg/Cm <sub>2</sub>
Equipment weight	250Kg
Production capacity	36-38/min (based on 10 g)

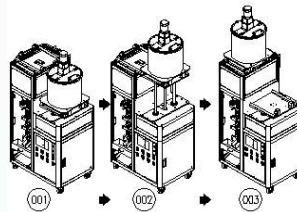

## I Single line powder stick packaging machine

### Features

- Slim type enough to be installed even in narrow places.
- Easy to operate with the touch screen.
- Contents: Sticks for powder, pills, and granules can be used in combination.
- Film cutting: Basic round cutting

Dimension	830 cm (L) X 830 cm (W) X 2250 cm (H)
Rated voltage	220V / 60hz
Power consumption	3.0Kw(Max)
Air pressure	5-6 Kg/Cm <sub>2</sub>
Equipment weight	150Kg
Production capacity	16~18 packs/minute (based on 5 g)

## I Semi-automatic vertical solid ingredients-packaging machine

### Features

- Manually input depending on types of ingredients.
- Easy to operate with the touch screen.
- Efficient cleaning possible.

Dimension	1600 cm (L) X 750 cm (W) X 1800 cm (H)
Rated voltage	220 V / 60 hz (single phase)
Power consumption	3.0Kw(Max)
Air pressure	5-6 Kg/Cm <sub>2</sub> (Comp' : 5 HP or more, receiver tank : 250 Liters or more)
Equipment weight	200 Kg
Production capacity	8-10 packs/minute (based on 50 g)

# I Automatic vertical microorganism packaging machine

## Features

- Easy to utilize the space with the work structure of the vertical type conveyor method.
- Easy to operate with the touch screen.
- Efficient cleaning possible.

Dimension	2300 cm (L) X 650 cm (W) X 2160 cm (H)
Rated voltage	220 V / 60 hz (single phase)
Power consumption	3.0Kw(Max)
Air pressure	5-6 Kg/Cm <sub>2</sub> (Comp' : 5 HP or more, receiver tank : 250 Liters or more)
Equipment weight	500 Kg
Production capacity	5-7 packs/minute (based on 2L)

# I Standing rotary packer

## Features

- Due to its slim design, possible to be installed even in a narrow space.
- The system is easy to operate, so anyone can operate it easily.

Dimension	720 cm (L) X 650 cm (W) X 1300 cm (H)
Rated voltage	220V / 50 / 60hz (single phase)
Power consumption	2.0 Kw
Air pressure	5-6 kg (Comp.: 5 HP)
Equipment weight	70 kg
Production capacity	9-11 packs/minute (based on 100 g)

Stick, Liquid, Powder

Shape Pouch

Standing Three - Way Pouch

Standing Nbang Pouch (for 2-5 L)

Spout
